

Union, Aug. 10th 1871

Dear Mr. Watson

I am under
no any obligations or re-
terminations just said.

Dr. Gray says of Solen-
ium caninum - "With all
my heart I ~~could not~~ ^{cannot} give
the following specimen
you sent to "Watson" - I
not say "Watson" did I?
it was Hoolson! I don't
rebelve they were sent
to Cambridge

You must try to
find out through my
specimens of Solenium
& try & shake out a seed
such that you may

try to cultivate it if you
can.

I wanted very much
to make a special trip
to seeds, but could not
do it.

Very truly yours,
Wm. C. Cusick
